

Podcast outline

- 00:00 Introductions
- 3:21 Susan talks to us about where she first started applying ABA to animals and some of the first animals she ever used it with.
- 9:34 Here we discuss the use of labels when thinking about and discussing our animals behavior and some potentially undesirable consequence of using labels when focusing on behavior.
- 18;29 Here we talk about problem-solving using ABA (Applied Behavior Analysis) and Susan's FAID document that can help guide this process.
- 28:02 Here Susan talks about the phrase most positive, less intrusive and discusses the behavior change hierarchy with special attention paid to some supporting diagrams she has created.
- 44:28 Susan shares some of her favourite stories from her experience and some important lessons she has learned along the way.
- 48:47 Susan takes us into the future here and tells us what she would like to see happen in the next 5-10 years in the animal training world.
